

**Associate Site Health, Safety & Environmental Officer**

Permasteelisa Hong Kong Limited

CHEUNG Fu Shing

Associate of Science in Environmental Studies

Graduated in 2014

CHEUNG Fu Shing completed the Associate of Science in Environmental Studies in 2014. During his study, he was proactive to further enhance his knowledge by participating in various activities organized by the College such as environmental visits, field trips, in-advance IELTS course, and alumni sharing. All these valuable experiences broadened his horizons and better prepared him for the workplace.

After completion of associate degree, he then pursued his study in Bachelor of Science (Hons) in Environmental and Occupational Safety & Health (EOSH) in the Hong Kong Polytechnic University and graduated in 2016. This programme has been designed to train up competent EOSH professionals to meet the increasing demand in the field. Currently, he is working as an Associate Site Health, Safety & Environmental Officer for an international facade construction corporate in M+ Museum Project in the West Kowloon Cultural District. The EOSH field is very much in demand and has offered him the opportunity to be registered a Safety Officer with the Hong Kong Labour Department.
