

Business Associate

Fidelity International

CHAN Sin Ting Kitty

Associate of Business Administration (Financial Services)

Graduated in 2015

Kitty completed the Associate of Business Administration (Financial Services) in 2015. She then continued her studies at the University of Science and Technology, majoring in Finance and Information System. She is now working as a Business Associate in Fidelity International. When Kitty talks about her life in the College, she is more than excited. "The College was definitely the turning point in my life! During my studies, I have encountered many challenging courses especially those financial theories that are difficult, yet it provided me with a solid foundation for my degree studies and even in the workplace. Moreover, it enabled me to develop my time management skills and be resilient when there were countless tasks to be completed. Classmates were amazing - we did presentations together, studied together, and shared ups-and-downs. Lecturers were extremely helpful - they answered our questions with patience, helped us to prepare our universities interview, and encouraged us when we are frustrated. All in all, the College equipped me with the skills that I need in the real world and shaped me into the person I am today. I am honoured to be the student of UOWCHK."
